REP. TOM EMMER:

Mr. Speaker, I rise today to recognize Lake Ridge Care Center in Buffalo, Minnesota for providing outstanding care for our seniors. This year marks the center's 100th anniversary. For a century, this facility has offered short and long-term care for older adults. Since a large number of residents are not mobile, the staff of this 100-year-old facility found a new way to get residents moving by starting a daily boogie walk with music playing over a sound system. With music requests from the 1950s and beyond, residents have been motivated to exercise. As a result, the center's quality measures rose from 41% to 70% of residents walking, and they rose by 130 spots in our state's rankings. Congratulations to the staff at Lake Ridge Care Center for your innovation in going above and beyond, and thank you for caring for our seniors with a profound level of care.
