

Rep. Tom Emmer on Emmer Congratulates Anderson Trucking Service

Broadcast: December 15, 2015 • Duration: 1:29

****REP. TOM EMMER:**

** Thank you. Mr. Speaker, I rise today to recognize Anderson Trucking Service for their impressive 60 years in business. The founder of Anderson Trucking, Harold Anderson, grew up in the transportation industry and began hauling granite with his father. In those early years, Harold developed a strong interest in machinery and driving, so it was no surprise when he chose to pursue a career in trucking. Harold officially started Anderson Trucking Company after he returned home from World War II. The company is now run by Harold's sons, Raleigh and Jim, as well as his grandsons, Brent and Scott. Over the years, Anderson Trucking has grown and prospered, but the Anderson family has never forgotten their roots. The company and the Anderson family represent the best St. Cloud, Minnesota have to offer. The customer service of Anderson Trucking is only matched by the community service provided by the Andersons and their great employees. Today, Anderson Trucking has thousands of rigs, hundreds of drivers and has driven millions of miles. The Andersons, however, do not just measure success by the number of miles driven or the number of deliveries made, but also by the high level of customer service that the company provides. For the past six decades, this international transportation company has successfully and safely delivered freight to their valued customers. We look forward to seeing the continued success of Anderson Trucking for this generation and generations to come. Congratulations on your first 60 years.
