****REP. TOM EMMER:**

****** Thank you, Steve. On November 5th, the American people rejected the failed policies of the Biden-Harris administration and overwhelmingly endorsed President Trump's America First agenda. Using his executive authority, President Trump hit the ground running on day one to deliver on the promises he made to the American people. Today, House Republicans followed suit. Our one big, beautiful bill fulfills the mandate for change we were given last November. It allows President Trump to continue his successful border security and deportation operations by investing in more border patrol agents and ICE officers, funding the continuation of the border wall, and equipping our men and women on the front lines with the tools they need to keep us safe. Not only will the one big, beautiful bill help to make America safe again, it will also help to make America wealthy again. America's economic revival has already begun under President Trump's leadership, but House Republicans back it up in this bill by making the 2017 Trump tax cuts permanent, eliminating tax on tips and overtime, and throwing out regulations that burden American businesses and suffocate American innovation. From promoting the safety and security of our great nation and giving much-needed tax relief to American families, to unleashing American energy and bringing accountability to important government programs, there are wins in this bill for every corner of America. Take this as a lesson. Don't bet against the House Republicans. We've shown time and time again that we deliver for the American people, especially when it matters most. By taking hold of this historic opportunity, I truly believe we've unlocked the opportunities for generations to come.
