Broadcast: November 05, 2025 • Duration: 2:40

****REP. TOM EMMER:**

** Democrats have officially set the record for the longest shutdown government shutdown in US history and each day that their needless shutdown drags on the consequences get more and more severe. Yesterday Transportation Secretary Sean Duffy said they might be forced to close certain parts of the airspace if the government if the Democrat government shutdown continues into next week. Remember when one Democrat aide remarked that the party will not concede short of planes falling out of the sky? They weren't kidding. They are prepared to prolong the pain that they've inflicted on the American people because as Chuck Schumer said, every day the government is shut down gets better for us. And as Catherine Clark and Chris Coons said, government shutdowns are one of the few leverage times they have. But while the Democrats have been busy playing politics with people's lives, President Trump has been hard at work delivering on the mandate 77 million Americans gave him one year ago today. In just 10 months, President Trump has delivered the largest middle tax cut in history. He brought illegal border crossings down to record lows after four years of the Biden border crisis. He ended eight wars and made America respected again on the world stage. And he's just getting started. While President Trump has been hard at work delivering on the American first agenda for 77 million Americans, that's what they voted for. The Democrats have been hard at work obstructing that agenda and consequently the will of the people at every turn. The Democrat Party of today is not your grandfather's Democrat Party. Nothing proves it more than last night's election results. From a communist mayor in New York City to a Virginia Attorney General who said he wanted to murder his political opponent, pro-terrorist Marxist radicals are now the left's mainstream. We will prove that there is no problem too large for government to solve and no concern too small for it to care about. That is a direct quote from Kami Mamdani and it should terrify every single freedom loving American. This is the kind is the land of insanity Chuck Schumer and company have enabled with their party's political games and now they must own the consequences. And with that our conference chair Lisa McClain.
