

Rep. Tom Emmer on LEADERSHIP PRESS CONFERENCE

PRESS CONFERENCE

Broadcast: June 04, 2025 • Duration: 2:29

****REP. TOM EMMER:**

** On Sunday afternoon, we witnessed yet another horrific anti-Semitic terrorist attack on U.S. soil. While a peaceful group marched to call for the release of innocent hostages held by Hamas, an evil man launched a well-thought-out, deliberate attack intending to kill, quote, all Zionist people, end quote. As he threw Molotov cocktails into the crowd, he shouted, free Palestine. As you've already heard, we need to be clear about this. The violence we are seeing against the Jewish community here in America is a direct result of the left's refusal to condemn and combat anti-Semitism. Sadly, this evil ideology has not only been tolerated by the left, it has been encouraged and enabled. When rampant anti-Semitic behavior exploded on college campuses in the wake of October 7th, Joe Biden and the Democrats refused to hold these universities accountable. Even sitting Democrat members of Congress regurgitated talking points from Hamas terrorists and normalized riots that do the same. It's unacceptable. To add insult to injury, the Colorado terrorist was, again, an illegal alien who was allowed in the United States by the Biden administration. For four years, Joe Biden and the Democrats failed open border policies, welcomed unknown members of potential terrorists into our nation, setting the stage for scenarios like the one that we saw this week. By letting millions of unvetted illegal aliens into our communities, the Biden administration left a national security mess, and the Trump administration is racing to clean it up. Border security and deportation efforts are urgent, lives are at stake. Our one big beautiful bill strengthens these efforts by providing additional funding for more deportations, more border patrol agents, and more border wall. We're going to continue to work with the Senate to get this done for the American people. And as we've said every week since we started this march, failure is not an option. The safety of our communities depends on it. With that, I turn it over to our leader.
