

Rep. Tom Emmer on Emmer Congratulates Alex Nutt and Michael Dehmer on thier Scholastic Achievements

Broadcast: June 13, 2017 • Duration: 1:19

****REP. TOM EMMER:**

** Mr. Speaker, I rise today to recognize two high school students from my district for being chosen to represent the great state of Minnesota in two prestigious science, technology, engineering, and math, more commonly called STEM-based programs. Alex Nutt of Princeton High School has been selected to participate in the Congress of Future Medical Leaders, and Michael Dahmer of Buffalo High School has been selected to participate in the Congress of Future Science and Technology Leaders. These programs were specifically designed to inspire high school students who are at the top of their class and hope to pursue a science-based career. Once they have successfully completed their career, Alex and Michael will continue to receive mentoring to help them successfully pursue their chosen careers. The career paths that Alex Nutt and Michael Dahmer have chosen to pursue are not easy, but they are incredibly important to our country. In order for our nation to remain both competitive and successful, it is vital that today's students take an active interest in STEM fields. That's why I'm proud to honor both Alex and Michael, and to thank the National Academy of Future Physicians and Medical Scientists and the National Academy of Future Scientists and Technologists for working to ensure that the future of our nation is bright.
