### **\*\*REP. TOM EMMER:**

\*\* Hi everyone, Congressman Tom Emmer here coming to you at the end of an extremely productive week in Washington. Tax reform is the hot topic on Capitol Hill and this week the legislation worked its way through the House Ways and Means Committee. While I don't serve on the committee that will hear this legislation, I look forward to continue to watch these reforms work their way through the committee process and toward a vote on the House floor. I'm also proud that our Micro-Offering Safe Harbor Act passed off the House floor this week. This legislation clarifies an old law so that our nation's small business owners and entrepreneurs can raise capital more easily and have more potential for growth. Lastly, our Miner Act passed out of the House Natural Resources Committee and got one step closer to the House floor. This reform will allow us to restore mineral rights to Minnesota so that our miners, our state and our nation can once again thrive. Any week where we advance necessary legislation to better the lives of all of us today for years to come is a successful week to me. Thanks for listening. Have a great weekend.
