**JOHN:**

uh... tom emmert how are you tom

**REP. TOM EMMER:**

i'm doing great john i'm doing great there was never any doubt the president said he wanted the eleven bills of the twelve uh... that he could sign into law today now that was done and now he's got the uh... two-week which is more like a ten-day c r on homeland security uh... because he's going to negotiate directly with the other side to get something done while it you know i i i i don't know the president to survive that negotiation john and john i was just thinking that i was thinking that is a lofty task uh... because schumer just came out of the uh... majority whip emmer this is rita cosby it's great to talk with you uh... you know it that senator schumer came out just a little bit ago he said why is mike johnson uh... pro-secret police other democrats were saying ice is the biggest threat to america so we're going to try and drop a little bit trying to take your home town minneapolis than the billions of dollars missing off the front page now well uh... professor tertiary with uh... referring to uh... the uh... little singing ceremony the grammy the other night uh... a lot of these uh... democrats that you're talking about those are the people they identify with so you know birds of a feather right uh... if they're they're doing everything but what the american people elected them to do john and rita uh... at the end of the day it is republicans who are being the party of responsible governance donald j trump got elected by seventy seven million people to make these things happen uh... he just continues to succeed uh... and so did the republican majority no matter how thin they are doesn't matter we have majority and we keep succeeding think about it both of you eleven of the twelve bills are now signed into law through next september that that's unheard of based on the history around here in the last thirty years and uh... if anybody can get the last one down it is our president donald j trump

**JOHN:**

myself for that we have myself become u.s. senate candidate in new york congressman good to talk to you and how are you

**REP. TOM EMMER:**

sorry great to hear your voice bike haven't been in a while well i think we saw each other down in the floor about a month ago so but great to talk to you

**JOHN:**

now for me it all runs together i understand what you're saying i don't even know what day of the week it is but you know we talk we listen to all these activists in minnesota what are the real common sense people in your district in minnesota saying about what's going on there

**REP. TOM EMMER:**

well first off the uh... the urban core is where uh... you're seeing these photographs of these crazy people and what but i would say mike is uh... that those people are not reflective of my state those people have been invited into my state much like the uh... church protest you were talking about dot lemon dot minnesota what god may want to do when they're all he was there to cause trouble he was invited by our our worthless governor iraq competent and uh... you know the guy let what as much as nine billion dollars get built out of his uh... is administration tim walz uh... our attorney general keith ellison and uh... a marriage small pride basically have invited all these people into the urban core to attack and literally obstruct uh... federal law enforcement you get outside of that urban core which is what you're talking about my now you've got people who are very grateful when they talk to me they're very grateful that uh... the president has federal law enforcement taking the worst of the worst off the street that we're talking about rapists convicted rapists murderers child predators drug dealers i've seen deportation orders outstanding since as early as two thousand six i'd be that democrats have allowed them to wander the streets of minneapolis in st paul unaffected and when we arrest them when we do pick them up they have to release them again since twenty twenty one when keith ellison basically told all of our sheriff that all of our police chief that you can't hold these people and you can't notify ice it used to happen it's just a matter of course you bring somebody in they pop up on the computer you'd send it to the bureau of criminal apprehension who would that alert the uh... the federal law enforcement who would come and pick them up when you're releasing a uh... tim walz and keith ellison that stop that practice in twenty twenty one they're grateful that the president is doing this but there's a big but here uh... they are seeing these stories uh... in the it's it's in some cases not responsible reporting that you're seeing postings of uh... car chases guns drawn people getting pulled over a kid getting ripped out of cars ninety five percent of those stories are debunked within uh... twenty four to forty eight hours but guess what guys the damage is dot so that the people that are you know the reasonable people of minnesota who appreciate federal law enforcement and what these rapists murderers uh... these drug dealers and pedophiles off the street they'd want to see some change in how the federal law enforcement is interacting with the uh... with the population on the street and that's why i think uh... the president of the great decision last week sending tom holman tom holman is a cop's cop he's common sense uh... he's very uh... straight into the point and uh... he he'll get it done you know i know congressman emmer

**RITA COSBY:**

one of the things though is that it seems like some of these people can just never be satisfied i mean there were people protesting when tim walz and tom holman were meeting they were mad at tim walz for meeting with holman um... and and also some of the demands that are now going to be on the plate i guess of president trump in dealing with the democrats the democrats are saying they want to de-mask all agents not the protesters the agents the ICE agents they also want these judicial warrants i mean these demands are just so absurd how can how can the agents function if their if their identities are all over the place how can they feel safe

**REP. TOM EMMER:**

yeah president trump and uh... and republicans in the house and the senate are not going to tie the hands of uh... any law enforcement officer whether that's a federal law enforcement officer a state law enforcement officer a local uh... police officer we are not going to do that we want to tie the hands of the criminals uh... for some reason uh... these democrats seem to want to protect criminals at the expense of tax-paying law-abiding u.s. citizens it's insane rita and you when you correctly point out you got mayor small fry who have a conversation with the uh... president i think the president characterizes it and so does that either by himself or someone in his office as a good call right it was a good call it was productive the very next day uh... small fry is

out there saying no one is going to be uh... sending federal law enforcement in the his city you gotta cut them out and the reason he's doing that is because he's not a leader he's a very immature leader at best i those anarchists that he is beholden to went crazy out of my guarantee overnight because they not only don't want a good phone call they don't want any phone call so though they're not the majority of the people in our state much like uh... jacob did not represent the majority of the state he represents a very small population frankly in that minneapolis and uh... it's it the greater minnesota thing has to by the way guys you want to see what minnesota really is go to our secretary of state's website pull up the map that is posted there for the twenty twenty four presidential election you know what you're going to see you're going to see a sea of red there is a blue dot called minneapolis and st paul and the rest of the state is red at some point at some point the rest of the state has to matter to these left-wing lunatics

**RITA COSBY:**

yeah great points uh... great i i i love the small fry reference that you've been making we all love that he's a punk

**REP. TOM EMMER:**

rita he's a punk uh... and i i agree i really appreciate the way uh... uh... you tell it the way it is

**RITA COSBY:**

yeah he's great you are great way i wish uh... i wish you were running the entire taking over minneapolis too taking over for a small fry

**REP. TOM EMMER:**

well look these guys they're they're doing us a favor in many respects because if we can get this right and i think the president tom homan will get it right when they do our our citizens are going to recognize that they in fact have pulled the worst of the worst i think i'll tell you what i had one of these middle-of-the-road minnesotans uh... he doesn't worry about a whole lot of stuff he texted me uh... on a saturday night uh... a week ago and said that uh... the federal law enforcement is going door-to-door in my granddaughter's building uh... and they're armed and i sent him back to a short list of all the bad people that they've already taken off and all i could with i hope one of these guys isn't living in a building i'd be quieted down very quick and and he recognized that the whole thing if it can walk in keith ellison have told local law enforcement they cannot cooperate with federal law enforcement if they would just allow that cooperation nobody had to take a knee nobody had to claim victory just get back to letting them do their job that law enforcement knows how to do better than you know what everything in in minnesota settled down very quickly except for these anarchist anarchist marxist radicals and then tim walz has to fight for some other smokescreen to hide from the fraud uh... stuff that's going to fall out of it

**JOHN:**

thank you very much you're great you keep fighting the good fight we love you

**REP. TOM EMMER:**

thank you thanks rita thanks john and we'll talk to you again real soon

**RITA COSBY:**

great job today in washington and uh...
