

Rep. Tom Emmer on the Cats and Cosby Show

Broadcast: July 20, 2026 • Duration: 7:41

JOHN:

minnesota and he is the majority whip of the uh... uh... g lp you got your hands full of uh... time ever yeah well it's great to be with you john as usual appreciate all you do for the cause getting the word out but you're right uh...

REP. TOM EMMER:

minnesota continues to be an issue by and it's because of the failed incompetent and corrupt leadership of a guy named tim walz i don't know if you saw this in the last two weeks john but tim walz and our attorney general like keith ellison actually pardoned a child rapist a uh... a guy that was here illegally he's here illegally he started raping a a little girl age ten repeatedly and when he was arrested in charge he tried to say well this is normal in the culture that i come from which he since recanted these idiots pardoned him uh... john they gave the criminal a pardon at the expense of this uh... little girl it just you can't make this stuff up these people cannot get out of office soon enough john

JOHN:

well i i i just can't understand it at all crazy the world has become the fact is that if harris and tom waltz would have been the vice president i mean can talk to you our country would have had a hard time surviving

REP. TOM EMMER:

yeah now it would be if we'd we'd like donald trump said there's a reason that god has been doing what he's doing uh... he's got to finish the job he started these guys would have uh... finished the job destroying this country uh... but eight you just gotta look at their flawed reasoning john when walz was asked why uh... he was pardoning this child rapist he said quote we shouldn't judge people by their worst day john this guy this wasn't one day this was multiple rapes of a ten-year-old girl and secondly he was convicted he was tried and convicted uh... god bless donald trump and marco rubio they actually uh... regard if they ignored the pardon and they deported this illegal uh... get in the hell out of the country which is exactly what should happen

JOHN:

a hundred percent other things happening in uh... uh... in washington what do you feel emotional about uh...

REP. TOM EMMER:

i i would what we're watching john and and i talked to a bunch of interns here in washington dc last week uh... you know they've been working on the hill i thanked him for showing up volunteering being part of the process but i asked them all one question i asked how many of you have read uh... the uh... road to serfdom by hayek not one hand went up and i told him you all need to go read it because mom donnie the commie these quote-unquote progressives uh... that's what that book was written about that was high act writing that book during world war two to his elitist intellectual buddies about why quote-unquote socialism only ends poorly uh...

and why socialism and marxism quite frankly have been responsible for more human death than any other political ideologies on in the uh... the face in the history of our planet so by and that's what got me going is that the bernie sanders by your uh... young lady from new york uh... the quote-unquote progressive wing that is really the uh... socialist marxist communist anarchist wing of uh... what used to be my grandfather's democrat party it certainly isn't that anymore

JOHN:

understood uh... and uh... i will tell you i'd tell that to the the democrats uh... the democrats are trying to come together to get rid of of the communist act and i went to an event in the hamptons uh... the on uh... sunday morning uh... where there was a lot of common sense democrats trying to pool their party together and in the in the look at it is that they had similar problems in the seventies the eighties and nineties uh... but i think right now i think it's getting a little bit out of control for them

REP. TOM EMMER:

yeah i i don't think uh... we can compare their problems in the seventies eighties and nineties to what they're dealing with right now because quite frankly i don't think our founders ever saw a day when someone and i had a voting card in the u s house of representatives and called themselves a marxist a socialist maybe but a marxist a communist i mean it's amazing if if there are any seen democrats left which it sounds like you saw some over the weekend john i can understand why they're terrified by the candidates that their party's been nominated instead of a d at the end of their name they should be putting an end for marxist because again if this is no longer my grandfather's democrat party uh... mom donnie your guy there in new york city who you've had a lot to say about he's the real leader of the democrat party despite what i came to dream and chuck schumer uh... wish that that's who's running this in these candidates for congress many of whom beat those at this is why you're you're uh... if the people you were with this weekend are so upset because many of these crazy left radicals are beating the uh... it the incumbent rational incumbent democrats at these people uh... like uh... the platner mistaken in maine uh... this else i had in uh... in michigan i mean these are crazy if people want to use taxpayer money for transgender surgeries they want to defund the police they want to abolish ice and they want to let the illegal aliens vote uh... none of those by the way is going to make americans more safe nor is it going to lower gas prices i think it's going to make for a pretty clear vote a decision on your vote in november john

JOHN:

uh... absolutely in you know uh... gas prices were going to write direction interest rates were we were set up to go in the right direction cruise inflation was going the right direction uh... right now uh... the president has his hands full until we uh... until we sell some matters how well the president doing the right thing i mean uh... he was trying to do what the uh... president of peace uh... does best he was trying to work a deal to have peace in the middle east peace with iran peace in the region uh... in the iranians by pretty much uh... not the uh... the persian people because you know john there are many great by uh... people in iran uh... we're talking primarily about the i r g c the uh... royal guard uh... they cannot be trusted and uh... the president is dealing with it

REP. TOM EMMER:

i thank god we've got a president who is willing to make decisions and uh... and uh... identify the problem and deal with it i'm confident he's going to have it dealt with very quickly and john the straights going to be reopened again and uh... ultimately because of donald j trump peaceful reign through the middle east he is the only one with the courage to do what he's doing nobody else has the courage and and i uh... praise him uh... every day on on uh... radio and television

JOHN:

and thank you tom emmer from the great state of minnesota for uh... car calling in today and uh... god bless you
god bless america and god bless donald trump because you we he's gotta stay healthy to keep doing what he's
doing

REP. TOM EMMER:
