

Rep. Tom Emmer on Sid & Friends in the Morning

Broadcast: September 18, 2026 • Duration: 17:59

SID:

There I was in the Oval Office with the president yesterday and the last time I saw the president speak was in Dallas about a week ago and A week ago Wednesday night and I looked to my left As the president enters the stage with Lee Greenwood singing that great song and who's standing there this really handsome guy with white hair out of the state of Minnesota who I've become Very very friendly with I love this guy happens to be the majority whip And so important to our party tom emmer and I had a chance to meet tom emmer's lovely wife that night too

REP. TOM EMMER:

Put his mic on dad. You're on we're live. We're live.

SID:

Yeah everybody knows uh Everybody loves jackie. They just just asked the president. He loves her too.

REP. TOM EMMER:

Oh, yeah, he'll tell you

SID:

Oh really because you know what's funny about that for the first time ever the president met my wife yesterday Him and I had closed for years. He never met danielle. I took her into the oval office He said oh my god, what a pretty wife What a pretty wife and he was so complimentary and so great and my wife was a democrat And trump kind of turned her, you know, so he's like that the president gave an invitation There's a few months back for dinner. He says you want to come over for dinner. What do you say? Absolutely. Yes, sir. Yeah, he says is jackie with you. I said, yeah, she is he goes. That's great Bring her with you. Otherwise, don't bother showing up. That's him. There you go. It's not great Yeah, that is fantastic and he was uh terrific that night how do you think the uh the whole thing when I saw you the next morning walking back and forth doing about nine million interviews and I spoke to him that next morning when you walked by for about an hour, but um, you think last week was Fun and glitzy for the party or do you think it really helped?

REP. TOM EMMER:

Well, they look People can have different opinions. Uh, but this is the genius of our president Our president understands that the result will be based on turnout sid and unfortunately When a party is in the white house They tend to be happy because they've got donald trump sealed the border donald trump has got Homicide levels and crime at the lowest level in a hundred years. I mean All of these successes that donald trump is having The parties, you know that the hardcore mega world is happy And what he was doing last week with all of us in the same place was saying Don't rest on your laurels. This is not over. You got to stand up You got to show up and you got to vote and I want you to pretend that i'm on the ballot And I from that standpoint because

look none of these media outlets, you know present company excluded none of the uh, Lamestream uh media is ever going to do him a favor of celebrating anything that he's done, right? Okay Uh, we weren't talking to democrats. We weren't talking to independents last week. He was talking to hardcore republicans Challenging them to get up and get out and vote Now there are some things that are not going great. He'll admit that president trump. I mean, he knows that when the iran Conflict is over. He doesn't call it a war anymore It's a conflict at this point that at that point we'll see gas and oil prices start to come down and You know, I know he wasn't happy with kevin walsh earlier in the week. He handpicked the guy and he raised interest rates That's not great. And I think you'd even admit that goods are still a little high inflation That's why walsh did it is still a little high so trump While he deserves a ton of credit because he was left a big bag of duty folks smelly duty by that Walking cadaver joe biden and he's fixed a lot of it. He hasn't fixed all of it He knows that you know that

SID:

Is that fair to say?

REP. TOM EMMER:

Yes, and no, I mean I think uh If if we want to play the game the democrats and the left-wing media play And just pick trees in the economy instead of the entire forest Yeah, I can tell you, you know, I we were having this argument the uh other day eggs are down, right? I could start eggs are down big.

SID:

Yeah, I could talk about all these things that are good Now look, by the way, he tells a great story. He goes I come into office And eggs are high. Okay, they start yelling at me yelling at me What are you gonna do about eggs, sir? What are you gonna do about eggs? He said I just took over an hour ago He tells that and almost but he's right. I mean, you know right away make it fix make it better when he does do that The other no, no, don't be sorry, I think that's great so I can pick those trees, too Like the way they do on the other side.

REP. TOM EMMER:

There's just happens to be more effective because it's the gas And people should just think how crafty this is We don't fill our tank every day just like we don't go into the grocery store every day But you know what we do we do drive by that sign every day that says 350 375 four dollars 425 so look, I the The economy just look at last week. We had a jobs report that was three times larger You did anything they expected and said it wasn't gig economy jobs. It wasn't uber drivers It wasn't door dash. It was high paying high tech jobs and manufacturing jobs With benefits, by the way, nobody seems to want to focus on that And the other piece is you realize if you think your country's not headed in the right direction Do you spend more money? Usually no you pull it you pull the belt tight and you hold on you realize Consumer spending is up six percent over last year I look there's there's a lot of good in the economy. Donald trump was handed the absolute biggest mess That anyone could have had to deal with because of joe biden's failed policies. You had inflation double-digit inflation We hadn't seen in 40 years. You had all kinds of things that were just out of reach for the average american I now under donald trump. He's bringing back investment. He's reshoring manufacturing jobs I mean the future is incredibly bright because of what donald trump has done. Are we all the way there? He's had 18 months said it's it's like your story about the eggs. I got here an hour ago Yeah, you know joe biden had four years to destroy this place. He did and he did destroy it, you know

SID:

We talk about trump being on the ballot, uh in terms of these midterms And people are quick to say he's not on the ballot. He is, you know, he's said on television a million times He said on this show on friday. He said sid i'm

going to 35 states. He goes brother. You've got great energy Maybe you can do five. I'll do 30. I said sure Um, but he's going to go to all these states and campaign. He was in north carolina two days ago for michael Watley you're doing the same thing by the way, mr Armour, thank you very much You're a great american and a great patron a great republican and you're going to go out and help a bunch of people as well So he's going to be out there in all these states and I don't know, you know last look watley was Getting beat pretty good by roy cooper I'm, not sure trump will win everyone, but he's got a pretty good record pretty damn good record up to this point So you got to feel better knowing that president trump is they're going to spend money Maybe a half a billion dollars and at the same time also hit the road. That's a good thing.

REP. TOM EMMER:

Yeah. No look by michael watley great example You on the outside you look in and you go boy the numbers aren't great with michael watley in this cooper, but I a north carolinian politico told me the other night. He guaranteed Michael watley will beat roy cooper. He did he very compelling He said first off cooper has never been exposed No one has ever run a campaign against him to literally lay out the argument as to why this guy is not qualified to lead And he said it's coming and when it does what happens is cooper's numbers collapse, by the way The other thing is you got to look at his numbers. Now. He has topped out. He's done Yeah, he's not going any bigger

SID:

Here's what I would do if I was mike watley and I know he worked with laurie trump and i'm close to laurie I may tell her this you want to beat roy cooper. Here's how you beat him tom all you got to do. I mean this I know it's horrible, but I mean this because sometimes you got to fight this way All you got to do is show the video Of that beautiful blonde ukrainian girl Getting on a train and some animal behind her slitting her throat and you can actually watch the girl die on this video and that happened in Roy cooper's State and roy cooper like the people here has no issue allowing people like that walk the streets Watley plays that he wins.

REP. TOM EMMER:

Yeah. Well, I Again a north carolinian that has reason to know guaranteed didn't tell me I think he can win Guaranteed that michael wadley's going to win.

SID:

So what is the um of all the issues out there? For the republicans at least what is our battle cry as we head towards november? What are we you're going to prove you got to be selling

REP. TOM EMMER:

you got to be selling what's already happened because the uh, The left-wing media is not doing it. So you got to be talking about no taxes on tips You're going to be talking about no taxes on overtime you got to be talking about no taxes on social security and then you got to create the contrast and Have people need to understand the other side Not only did they not vote for any of this They will undo all of it and it's really about putting more money in people's pockets about safety and security Donald trump's promises make america healthy again make america safe again make america prosperous again You got to focus on all those things that we've been doing in just 18 months that are literally having that impact And I believe that people Are smarter than these uh political elitists give them credit. So right?

SID:

Oh, yeah Yeah, it you're going to go into that voting booth and you're going to you're going to say ask yourself a very simple question Do I feel better about where i'm at today than I did 18 months ago? Is it even close unless you watch? Um, what is her name this idiot amy poehler Sitting with robert de niro two days ago. Did you see that? I mean, we want to talk about the america falling apart these two morons who make millions and millions of dollars, you know Just move just move. You don't like this place. Just get out.

REP. TOM EMMER:

Yeah, get out.

SID:

Yeah, get the hell out of here Show up these races in new york tom. Mike lawler. I think he wins. He keeps winning But I don't know. I keep hearing this kate conley has it. I don't know. Uh, mike lapetri long island janine driscoll out on long island Uh, you keeping an eye on on these races.

REP. TOM EMMER:

Oh, absolutely because your your buddy bruce blakeman Uh is running a great race against kathy hokuh. What a nightmare She is the only thing that she can claim is that what's that line? Uh, she may not be the dumbest person in the world, but if tim walls dies, yeah, she could she could take that over

SID:

I love that. Can I steal that? Oh, please do and you can use that with just about anybody any stupid person even kamala harris Right if tim walls dies you win kamala harris is a whole new level.

REP. TOM EMMER:

Yeah, that's uh, yeah but uh, bruce blakeman, you know county executive in nassau county all of the uh, Driscoll's, uh fourth district and three quarters of lapetri's third district are in nassau county, correct?

SID:

Yeah, we're watching watching and there's one race that i'm watching your neighborhood because don't forget I did sports talk radio for 16 years And I had this lady on my show many many many times. I really like her the great michelle tafoya. Yeah, how does she look?

REP. TOM EMMER:

I'm gonna tell you michelle tafoya The professionalism from her career comes out. It just stands out to begin with but you know what? I don't think anybody expected especially on the left her core values She is able to express her core values with that, uh, professional, uh broadcasting Background.

SID:

Yeah, there's a poll that came out a couple days ago that has uh, tafoya and uh, Peggy flanagan that That creep she's a lunatic. She's crazy. By the way. She's also uh, wall's right hand gal. She's the lieutenant governor She's been overseeing all the fraud with the uh fraudster himself All right. So this poll comes out. It's got him tied 43-43 this is not a push. This is just who do you like right? 43-43 And the undecideds Obviously, there's a healthy a number of undecideds think about this I think she's doing great because when you have an informed ballot She wins by five points and even looking at this 43-43 with the undecideds You know, peggy flanagan You're undecided because you don't know tafoya So the ones that come across I think the majority go

to defoy or they don't vote and I will give you one other piece Republicans in minnesota are winning the attorney general's race against. Uh, uh, keith ellison They all winning that because that is a bad guy very bad guy Ron shoots leads in the polling that we've seen so far the uh, the secretary of state's race going to be competitive We have something called the state auditor Got a guy named scott jensen running in that race. He's leading. Wow So if you look at the other races to compare with us people in washington ask me can michelle tafoya win?

REP. TOM EMMER:

Yes Absolutely, she can you just made a great argument They had no idea that many republicans were that competitive even winning in the state of minnesota

SID:

I mean i'm gonna be honest with you I watched the vikings because I love the nfl and I liked them against the packers last week and you and I kind of joked Around about kyle murray but outside of that i've lost a lot of faith in minnesota and you're there And my cousin norm coleman who I love dearly he's there, but i've lost a lot of faith in that state

REP. TOM EMMER:

Yeah, watch out for the governor's race, too. We've got the current speaker of the house. Lisa damuth Yeah running against amy klobuchar and everybody thinks oh, well, you can't beat amy. That's what I look out really Look, does she have a great brand? She's built it for years, but sid My district and the eighth district in minnesota, which is mine is uh north and east suburbs of uh excerpts of Minneapolis, right? Uh, the eighth is the iron range. Okay. Yeah, you know in 2018 Amy won my district and she won the eighth in 2024 She lost both of them to royce white.

SID:

She did lose to royce. Yes. I didn't know that No, okay. So but she's just such a big name. I don't know I get well

REP. TOM EMMER:

Lisa is uh is very capable if anybody can pull this off. Lisa can do it. So

SID:

If we take the worst case scenario the god forbid scenario And they actually do take back the house the democrats and trump has said time and time again Look, it doesn't matter how good I do. There's a history of presidents who do well and the other party still for some reason Takes over the house. Maybe the senate too Worst case scenario. Are you worried that every day will be impeached trump? And it'll be really difficult for president trump to get anything done In his final two years of one of the greatest presidencies in the history of our country.

REP. TOM EMMER:

Yeah. No, i'm absolute Why do you think i'm so motivated? Yeah, donald trump ran for four years not for two and we we've seen this playbook before We actually I don't know if you know this sid, but last week we had to deal with another impeachment Uh move by the great al green. I can't I hope the door hits him

SID:

Me too. He's such a piece of garbage, but a lot of democrats voted against it

REP. TOM EMMER:

They did how about that you you look at the core and I I should have brought the list with me These are people who are worried about their races By the way, I just got to point out everybody says the party in power when they're in the white house you lose the midterm sid When did that become the case one party controlled the house for a half a century? Not too long ago.

SID:

That's a good point. We keep talking about 1994 so good point

REP. TOM EMMER:

and and we are We're just equally divided. We got to run races that target our actual voters and donald trump god bless him His whole motivation is to get people engaged and get them out to vote if our people show up We're going to be just fine.

SID:

All right on the way out. You are so terrific. Tom You really are so the vikings have bought them off. They beat the packers So they bring in kyla murray the former arizona cardinal. He won the highest bid at oklahoma And i'm sitting watching the game going they can't win with this guy and I know the backups are carson wentz and jj mccarthy So kyler gets hurt. I never want to see anybody get hurt except for aaron rogers and uh ha ha ha Nothing too bad. Nothing that'll hurt his life, but he could be done with the steelers. I'd be happy So kyler gets hurt and I go, you know what? They got a chance now. They could actually beat queen bay It started off ugly for carson, but in the third quarter your vikings went nuts

REP. TOM EMMER:

Well, I tell you kyler is a hell of an athlete. I mean this guy's amazing But what is he he's like four feet tall he can't see Over the line They've got to open up the line for him to even see who's downfield Which is why you see the poor guy start to run the poor kid starts running all over the place Looking to make something happen. Look, I I don't wish anything bad on him either. He's out. Carson. Wentz is the guy Carson needs to get some of his confidence back because the tools are there.

SID:

Oh, I mean the damage that was done in Philadelphia, let's just keep those fans are not the most forgiving people on the planet giving they're like hamas Yeah, well, and they got to get better, you know, o'connell o'connell is a quarterback's coach.

REP. TOM EMMER:

Yeah for the vikings

SID:

Yeah, they got to get better at checking down quicker right and then unloading the ball and I you asked me about jj mccarthy I'm a fan. I don't yeah, I don't know what's going on. I mean he made some bonehead decisions, but he's a kid Yeah, he's a young quarterback and I felt bad for justin jefferson I mean between him and addison your wide receivers are as good as anybody's in the nfl and these poor guys can't win I know

justin's gotta be pissed right?

REP. TOM EMMER:

Oh, he's amazing. Yeah, he's a nice guy. He likes trump.

SID:

He does right?

REP. TOM EMMER:

Oh, yeah, he donates to republican causes and so if you're looking for a guy to root for folks Pro ball wide receiver minnesota vikings from emirate state justin jefferson.

SID:

Uh, tom, you're beautiful. I love you You really are thank you become a good friend and I appreciate you

REP. TOM EMMER:

right back at you. Thank you so much

SID:

Tom emma right here the majority whip and just a wonderful guy
