

Rep. Tom Emmer on highway funding bill, CBS 4 WCCO

WCCO

Broadcast: 2026-03-23 • Duration: 1:53

****HOST (FRANK):**

** Well, if you've driven Interstate 94 from Maple Grove to St. Cloud, you know it is now a bigger and better roadway. Today, the I-94 Corridor Coalition celebrated the additional travel lane, enhanced capacity, and the decreased travel times. The expansion progress has been a work in progress for the last decade. Three members of Congress were on hand today to talk about the next step of reauthorizing the surface transportation bill that funds highway projects before the September deadline. Representative Tom Emmer was at that event and toured the road project. New at 10, I had a chance to ask the Republican Majority Whip about the war in Iran and other issues important to Minnesotans. The President's sending more Marines to the Persian Gulf. What's your view on the potential of boots on the ground?

****REP. TOM EMMER:**

** Well, I'm not even going to get into that, Frank. I think the President made it clear that he is ending a war that's been going on for 47 years. I think both Pete and I and everybody that we work with, and I hope all Americans hope that this mission is short-lived and it accomplishes the goal, which is making sure that Iran never has nuclear abilities to attack the United States or United States interests here and around the world. So far, I think the President has overwhelming support for what he's doing. The good news is we have a Commander-in-Chief that makes decisions, and so far, so good. Let's hope that this gets resolved very soon.

****FRANK:**

** A message to people in your district who are paying more for gas and are concerned about inflation as a result of the close of the strait and the war in general?

****REP. TOM EMMER:**

** Yeah, I have the same concerns. People should remember that under the Joe Biden four years, gas was still a buck and a half, two bucks more a gallon than you're seeing right now. This is a short-duration event. Assuming that the mission is resolved in short order, you will see these prices tumble down again.
