

Rep. Tom Emmer on Kudlow

Fox Business Network

Broadcast: 2026-05-20 • Duration: 8:15

HOST:

let's bring in house majority whip tom emmer from minnesota congressman i i just couldn't believe that that this wasn't hyperbole that we were hearing about from the right but then i then i looked at this this uh... posting from marine for congress which is clearly marine galindo in which she says and we can put it up on the board that she's going to turn karn's ice detention center into a prison for american zionist shorthand for jews and former ice officers for human trafficking and then in parentheses it will also be a castration processing center center for pedophiles which will probably be most of the zionist this is essentially concentration camps for jews and ice agents uh... i thought we fought a world war to end that kind of stuff

REP. TOM EMMER:

david good to be with you but this is a topic that uh... seems to keep coming up with our friends on the left uh... you look at virginia they elected an attorney general uh... last november who fantasized about assassinating not only his opponent but uh... his opponent's wife and children and now you get this gal down in texas uh... she is certifiably insane uh... some people are committed to the cause this gal should just be committed uh... this is this is something that we should reject outright as americans it has nothing to do with uh... republican or democrat this has to do with nothing more than just stupid ignorant uh... and frankly uh... she's got some mental health issues but when you think of the the the mouthpieces that they have a people like uh... hassan uh... what's his name uh... uh... they did the the islamist that that is a friend of of mom donnie's and uh... piker's his last name i mean you know these people are saying very much the same thing so they are they have their own little echo chamber uh... some of them do get elected uh... i mean we also have of course in up in maine mister platner who has the the nazi tattoo on his chest and and is an outright communist uh... it's it real

HOST:

i'm just wondering first of all have any jewish members of of congress that you know uh... spoken out about this i haven't heard a word from senator schumer uh... about her comments calling for concentration camps i haven't heard from any other democratic jews talking about the fact that he is literally using or she and and platner literally using the language of the nazi party

REP. TOM EMMER:

died well i had this conversation about uh... this uh... crazy insane uh... candidate in texas uh... with a uh... jewish member uh... democrat member from uh... new jersey just about an hour ago and uh... let me tell you by he made the statement to me that is somehow she found her way to uh... to congress that he would make the motion to uh... uh... kick her out every single day she's here and the platner guy that you're talking about up in maine and this guy thinks he's gonna mainstream himself now david it's not gonna happen here's the good news the vast majority of this country the vast majority are common-sense americans uh... common-sense americans see through this stuff these people who think they can run as extreme radicals and that they're somehow going to change after they make these types of statements on the campaign trail somehow some of

them do find their way through the process we've got some marxists serving here in congress right now but the vast majority see through this i think americans are waking up to this kind of stuff i think it's going to show at the ballot box come november

HOST:

well i still think they have the the the major force of the democratic party right now is from this extreme left the good news is not only are the republicans and democrats but the biggest party or the independents and i don't think the independents are going there do you

REP. TOM EMMER:

now i mean that's the whole point eighty percent of this country and i'm just pulling a number out of the air they don't wear a partisan jersey year-round like some of us right uh... they are out there right now trying to pay a mortgage put food on the table clothes on the kids they're thinking about a great family vacation this summer they will get active come the fall you're right they call themselves independents but they lean right or they lean left this kind of nonsense they will not put up with uh... they will speak come november and i'm confident that they're going to reject this type of hatred this type of extremism this type of anti-semitism i mean when did we get this in this country you're right there was a world war fought in many respects about this very topic we don't believe in that here in america and we need to stand up for the rule of law around here

HOST:

many thousand americans died fighting for against that kind of rhetoric and to see it spring up in in our body politic is is really really disgusting i there's also a lot of disgust general disgust about fraud and you and i have talked about it before you unfortunately your state minnesota's become sort of the poster child for fraud but uh... now you have this task force of the vice president is really keen on it i just want to play a sound bite of him get your reaction to it roll that tape i think it's a great thing about our country is that we have this generosity of spirit where we take care of one another but fraud takes that away from us because it steals money from the taxpayer when they pay their taxes it is not isolated we're not just talking about uh... couple hundred million even though that's a lot of my we're talking about billions and billions maybe as much i've even heard somebody say when you add it all together it could add up to a trillion dollars of of our annual federal revenue i i mean this is something that you guys can campaign on in the midterms no or

REP. TOM EMMER:

absolutely and i think we already are this is what doge was all about when it started waste fraud and abuse you're right minnesota is the poster child five point seven million people there's some estimates of the fraud uh... that was stolen from minnesota taxpayers under tim walz incompetence and frankly maybe complicit uh... behavior that could be as high as nine billion dollars david but it's not just minnesota go to california we've got forty million people and you've got uh... all kinds of fraud going on go to ohio go to it's not confined by the way to just uh... blue states you will find it in other states federal tax dollars being stolen and all kinds of different schemes and it's high time that we address it it could be a trillion dollars on an annual basis imagine what that would do to americans by the way it doesn't matter again about the politics one thing that americans agree on american taxpayers they don't like to be lied to and they don't like to be ripped off this is absolutely a great campaign message that republicans and donald trump are going to continue with uh... jd vance our great vice president to clean this mess up so that these benefits that were put out there david they go to the people that they're intended for to the single moms with disabled kids to seniors to the people that count on these uh... these funds as opposed to the fraudsters like in my state

HOST:

and you don't you don't only use it for that purpose but you dry a lot of it up and therefore you come out with a new reconciliation bill that can put a negative number in instead of a more and more and more government money and and maybe you can get another reconciliation bill quick final thought on that

REP. TOM EMMER:

why did i totally agree on that and now's the time to get it done but let's add one more piece we gotta start holding people in positions of authority accountable for this fraud david that's the other thing my people at home are saying what are you gonna hold ilhan omar accountable what are you gonna hold tim walz accountable what are you gonna hold uh... our attorney general accountable and responsible for all the fraud that has happened under their watch i think that's as big an issue for november as the waste fraud and abuse itself

HOST:

yeah we gotta have you back to talk about ilhan omar i mean this is just this stuff of her money going from zero to millions and then back down to zero is is is quite extraordinary we'll have to ask you that another time though majority whip tom emmer great to see it thank you very much for being here
