****REP. TOM EMMER:**

** i'm doing great i'm doing great good to see you too so it's great to see you

****HOST:**

** what you are what you in new york today what's going on

****REP. TOM EMMER:**

** i'd just did doing what we're always doing we're working for the team where uh... we're here supporting our new yorkers were here supporting the uh... republican majority in the u.s. house of representatives which will remain a majority after next november

****HOST:**

** well i hope so i was just in rockland county on friday with your friend mike lawler your friend in my energy mister salt and president trump showed up six thousand large at the uh... the community college uh... up there in rockland rockland county community college it was an amazing event trump spoke bruce blakeman spoke he's running for governor mike lawler spoke howard lotnick spoke jackson dart the starting quarterback of my football giants introduced the president he's been getting killed since but nevertheless it was uh... big day with the president like you're doing tom out there endorsing one of our great republicans

****REP. TOM EMMER:**

** i'm i'm not a giants fan but i am now a jackson dart fan look at you should be able to express yourself regardless what your views are we always put up with the other side's view said right now you get this point the idea that you're not allowed to express yourself is an un-american approach please and have your disagreements but remember we live in the greatest country in the face of the plan for the jackson dart didn't walk up to a dual quarter his team leader what the big mouth about all this and say hey you bought over kamala harris what kind of moron are you which i'm sure he did that he should do that he really he really should do that

****HOST:**

** uh... you're not a giant band but yet when your favorite players ever played for the vikings your vikings in my giants and my neighbor frank is your neighbor for a while so you have to cross the street now really oh yeah i was running for a different office uh... back in nineteen and uh... two thousand ten and uh... francis uh... you

who were you and supposed to be talking to when i get back by the way uh... but francis told me little tommy emma how your mom and daddy said uh... you know that house i bought it in nineteen sixty four fifteen thousand dollar while and you call him francis

****REP. TOM EMMER:**

** yeah i call him francis do all of his close friends call him francis i don't think so i call him francis or uh... mister tarkenton i love that mama call me cassius and uh... you call me mohammed uh... loved him he was traded to the giants in exchange for quarterback norm sneed do you remember him

****HOST:**

** i do you do oh yeah absolutely i do norm sneed he had a plan for it what was it the eagles i think he did yes so you still think the vikings fan

****REP. TOM EMMER:**

** of course this is going to be our year no it's never jj mccarthy's gonna come out of his uh... shell and is going to take us to the promise

****HOST:**

** he's not even the starter i don't think

****REP. TOM EMMER:**

** all he will be he will be down the other kids a gamer he'll just be up at night playing a call of duty on the minnesota vikings have won how many superbows uh... well we've we've uh... competed very well

****HOST:**

** how many superbows

****REP. TOM EMMER:**

** we've competed very well are you all in four or all in five well i think we're tied with buffalo for all in four four because uh... cap lost once joe cap and torkington lost the other three well i couldn't score and you had a great opportunity chuck boorman ahmad rashad sammy white remember there was that game within nineteen seventy five in the nfc championship at the old met stadium against the crooked dallas cowboys the arlington cowboys where drew pearson push nate right to the ground to caught a a a a hail mary pass that he never should have had

****HOST:**

** true and there was no interference penalty called it was greatest vikings team ever but you know what that's the way it works right away it works it's still a uh... a great city i don't know a you're you're you're governor said something really stupid again a couple of days ago he's a is a moral he said anything smart and i mean although was a time i'll tell you the one second i liked him walls one second i want to hear this

****REP. TOM EMMER:**

** yes it was during the wretched dnc which was horrible every second of it except for this when i saw his son's reaction to his father on stage and that kid was crying that's my dad that's my dad i was actually mad at republicans that day because they were calling all kinds of names that was the only time i the kind of like walls

the fact that his kid love them that much and actually that he was kind of human

****HOST:**

** let's let's be clear you you really uh... appreciated his son you did not appreciate him

****REP. TOM EMMER:**

** while very good point yes he's not your dad and he's not my dad thank goodness that guy can't run a one car parade he is an absolute moron he thinks in fact more honest two words you're right i hate him again but do i hate him as much as i hate jacob fry the minneapolis mayor i don't know the small fry

****HOST:**

** yes small fry small fry he's a really bad guy too did you see what these guys did on monday it's a memorial day holiday i celebrate the men and women who have made the ultimate sacrifice i'm going to jump in george floyd they want to george floyd well it's a criminal it's a drug addict and a career criminal i know that they wanted to celebrate instead of our uh... i mean jacob fry that tweeted six times about the uh... that the deceased criminal and uh... once uh... very vanilla about our uh... our soldiers uh... in their families who have made the ultimate sacrifice i've been saying it for years we've got murals here in new york statues this guy was a scumbag he was arrested nine times he put a gun in a pregnant woman's stomach i don't think he died of a fentanyl overdose but he was certainly on drugs that day either way this is the person we turned our country upside down for whether it was murder or not this is the person that like you said six seven years later demands the respect from the governor and mayor in minnesota we got other bad people there keith allison's a terrible person

****REP. TOM EMMER:**

** yeah he's been he's bad news was good besides you uh... we we got a lot of good people if you go look at the presidential heat map for the twenty twenty four election it's on the minnesota secretary of state's you will see all read in the state of minnesota except for a blue dot in the twin cities metro area and by the way another blue spot up in the northwest angle which has more moose than people it's not like uh... all clear what is that exactly no no that's up by canada that's way away on the back there's a stretch that is canada and then goes back to minnesota it's like sixty miles

****HOST:**

** and so you're telling me tom emmer outside of saint paul and minneapolis but the rest of that state is basically read by m

****REP. TOM EMMER:**

** tim walz tim walz was re-elected with fifty two percent of vote he only won thirteen of eighty seven counties the seventy four counties that he lost said thirty seven percent of the vote in including his home town where trump by uh... beaten by thirty points in his own town uh... it is the bag thirteen county metro and by the way that is not uh... blue it's probably fifty two forty eight or five fifty four forty six

****HOST:**

** yeah i'm shocked by this so was the last republican governor we haven't had one here in forever it's been all the way back to pataki you remember that now hopefully bruce blakeman will be that guy

****REP. TOM EMMER:**

** paul lindsey is that your last republican governor yes he was pretty good right he was that was the last one yes it was norm coleman uh... didn't run for uh... he did he lost to jesse ventura

****HOST:**

** he did it was rigged they rigged that election well they rigged it but jesse did a good job getting all those uh... young kids and there was a time there when norm was running for everything even hubert humphrey junior couldn't win those races let's uh... let's get back though to what you're doing every day in congress let's get to texas okay here's cornyn as far as i know cornyn has never said anything bad about president trump he votes for the president over ninety nine percent of the time i know trump is frustrated and angry with the house and the senate i know that but cornyn didn't seem like the type of guy that really irk president trump yet the president goes out endorses paxton paxton wipes the floor with this guy and president trump is showing every week now tom emmer if he endorses you in the g o p primary no it's pretty clear the and but we said this uh... for years now donald trump's endorsement matters

****REP. TOM EMMER:**

** by and you know what i'm not going to play uh... the uh... rearview mirror stuff uh... there was a battle that took place in texas last night uh... the primaries over the people have spoken and now this argument which i understand a primary will this guy can't win i'm a better candidate and you know you're gonna have to now if you're from texas and you don't know who can paxton is then you're really not from texas he's been through everything in texas can pack good and now the canada but i mean who knows that donald trump has been through good and bad and so me too and look at it by right he's a probably one of the greatest leaders we've ever had a little history

****HOST:**

** hundred-percent i can paxton is going to win the in november

****REP. TOM EMMER:**

** yes well this guy teller we go to the cycle is that he's insane this is what the uh... democrat yesterday's democrat party in today's marxist socialist uh... it died this is why newt gingrich says it best this coming election is uh... a uh... it's not the uh... contract with america it's common sense versus crazy you got common sense which is donald trump and republicans or you got crazy which is these people i think they think while boyish it can be to be a competing with girls i mean you got tim walz who's putting tampons employees bathroom on real school bathroom

****HOST:**

** i think it's even it's even easier it's good versus evil but when i look at these dsa candidates you got this guy in michigan right now he's a bad person we just had a candidate when in new jersey she won relatively easily we got a mayor we don't know main main right well i gotta tell you tom this guy grand plattner never hear me say anything bad about a veteran ever ever i hate this guy i hate him anybody anybody that is anything nice to say about bernie sanders in my opinion is a terrible american

****REP. TOM EMMER:**

** yeah but it's worse than that i mean this guy is that he's a complete fraud he he's got an answer for everything he's got a nap and answer for the nazi tattoo he's got to have his supporters answer for that who knows i don't listen but he got it the other day he said disparaging things about a uh... a fellow veteran yeah i'd

call the he said he didn't deserve the purple heart he said he deserved to be dead he should be back and then when he was questioned on it is answer was you're questioning me and you know my military service no you don't play that that's like ilhan omar when we question her about criminal activity she says oh you're a racist you're a racist right that's not that's what democrats do today i know they try to give you a shiny object and distract

****HOST:**

** platner also was very rough on chris kyle that made the movie american sniper over the corporate government well you mentioned a lot of our she's another cycle from your state up in a study got a lot of them why is she so wealthy and what are we doing about

****REP. TOM EMMER:**

** that's a great point i mean first off uh... week the ilhan is always at the center of everything right uh... she there should be more gratitude from ilhan uh... she came to this country at the age of five this is uh... the kind of she could stay in somalia but no she's had a great uh... opportunity that this country offers and what you want to do she wants to criticize this all the time she's at the center of the feeding our future scandal that two hundred and fifty million dollar largest pandemic fraud case in minnesota she created the fund in congress that the somali fraudsters who by the way are her constituents and friends their videos of her celebrating with them is there a handing out supposedly meals maybe to themselves and i we're gonna find out more about that but then if that isn't enough uh... there's all these allegations of marriage fraud that uh... by the way if she did commit marriage fraud uh... she should be denaturalized and ship back to somalia yesterday

****HOST:**

** it's our long agree and then you're talking about the uh... sixty five thousand dollars that she put on her bike financial disclosures in congress two years ago last fall she updated it to thirty million and now it went about seven months of thirty million and when she saw eric Swalwell i will argue getting burnt to the ground by the left-wing media she suddenly had a uh... a at bay in a company yeah and said all i have a rounding error so it's it's thirty million down to as much as ninety five thousand all come on this gal is crooked i this is not just bad fish this is bad smell bad states this is the majority whip out of minnesota time number but we can't get rid of another see the censure thing people get all excited doesn't do anything not to get you get the other in in in the chamber you get you you're a bad person and that you go straight back to work now the only way that this is going to happen as somebody asked me last week if she should be forced to testify in front of congress because she's ignoring subpoenas i'd rather see her testify in front of a criminal jury and i think it's indicted my constituents and people all across this country asked me all the time said when is someone going to be held accountable for all the money that's been stolen

****HOST:**

** wasn't taught blanche is that basically what he'd be doing a look i know the president was not happy with him by the election we lost all great but blanche you gotta say is doing everything you can to make the president happy even going at the gym call me which is a no-win that's a loser situation why can you do something wait a second let's say that james comey think he's going after no

****REP. TOM EMMER:**

** this was a grand jury indictment if people need to understand this didn't happen because todd blanch suddenly had the big job now he's gonna go after james comey they had a grand jury going for weeks if not months and they took testimony they created the claim that that uh... they built the indictment and then they did

it when it just happened to be todd blanch it would've been pam bonnie as well

****HOST:**

** alright uh... how much do you guys miss marjorie tiller green be honest that's her birthday today happy birthday marjorie no it's not really a so that is so ironic how did somebody that love the president and i know she had a battle with all of you guys i mean i'm over the first time i actually met mike waller he said watch out for her i swear to god yes is it'll same thing you know they say that about lawler they tell me all the time i know that guy wally they say he's a right now they say he wants he wants amnesty he wants all these crazy things i love water but not true not not even close but what happened to her what do you think happened

****REP. TOM EMMER:**

** i don't know i a you know what what happens to people when they go to congress in general i mean they uh... is there a different kind of air there especially over in the senate think about the senate they're attacking our president right now they call it a slush fund that would give private citizens in this country access to uh... funds compensation when their government attacks them right these are the same guys that last fall said arctic frost you remember that they gave themselves a private cause of action where senators who were impacted by arctic frost can sue for up to five hundred million dollars but no no now we're gonna put a fund in for the american citizen it's good enough for the senators but it's not good enough for the citizens this is what we're dealing with every day in congress

****HOST:**

** what kind of job and i love this guy i love them i do but i talk to people everyday that uh... some love them some don't what kind of job is mike johnson doing

****REP. TOM EMMER:**

** i think he's doing a great job great job i tell you what you gotta grab a hold of that wheel i don't care what your background is if you got that job you gotta grab a hold of the wheel and baby you gotta hang on and do not panic you gotta drive straight ahead doesn't matter what storms are in front of you it doesn't matter what you encounter you just hold the wheel and go straight through and look what we've been doing for the last couple years exactly that and sid they count us out every time but i will tell you i people will tell you in washington is probably the best leadership group that you've seen in the house in years in terms of getting things done we've got one two three extra votes and we're getting more done than republican majorities in the last decade that had two hundred and forty seven members imagine that so you tell me that you may not like somebody you may disagree with them but the proof is in the results i love my job

****HOST:**

** so i love you i think you're just amazing i could watch you and listen to you all day you're hypnotizing uh... you really are great so tell me then on the way out here because you gotta go to fox news and speak to brian kill me uh... tell me what uh... what you guys are looking to do over the next couple of months besides the obvious when the midterms i mean when you're in that chamber bills and those types of things what do you guys are going to do

****REP. TOM EMMER:**

** i think our great president is it is going to lead the way with iran uh... right now they're trying to skewer him because he is the president of peace he's doing it again i mean he is completely decimated the biggest terrorist

regime that we have known in the last fifty years the the iranians have killed more americans than any other terrorist group on the face the planet in the last uh... fifty five decades donald trump is ended that i mean they're their military is decimated he is now trying to negotiate a peace agreement which is going to be peace on our terms if that happens said what's you're gonna see the billions of dollars that have been invested over the last several months in our economy because of the big beautiful tax bill is the president calls it by that those billions of dollars now we will pay attention to that gas prices will start to come back down people start to pay attention to all the good news that is in the economy guess what we're gonna hold our republican majorities because we have something to run on what is the other side doing nothing they're doing the same thing they did back in twenty nine oh four nothing

****HOST:**

** uh... save america act is that gonna happen

****REP. TOM EMMER:**

** it better i mean i'm i'm a house member we've sent it over there a couple of times i think it's up to uh... the senators to get their act together and that they get that thing across the floor in one one former another

****HOST:**

** so you don't think the uh... the whole filibuster discussion that is going to change everything someone's gonna change well it

****REP. TOM EMMER:**

** look at you can't just keep using the filibuster in the parliamentarian you gotta take a vote stop hiding behind these things and take a vote i i can tell you in the house the reason we get things done is because i'm tired of hearing over and over i'd just need a little bit more time guess what the time runs out it's the moment of truth you're gonna show everyone in america where you stand on an issue you're either with us or you're against us that's what they need to do in the senate

****HOST:**

** final question the timberwolves are out said exit again so now you're gonna have probably oklahoma city there the reigning champs of three games to do i don't see senator when he came seven on the road probably oklahoma city tom emmer take on the new york next you are currently sitting on forty nine street and third avenue not very far from madison square garden oklahoma city new york next who does tom emmer root for

****REP. TOM EMMER:**

** well i'm a cat fan remember we gave you the uh... carl anthony towns that was a great trade for us i remember all but what it was minnesota thinking julius randall and even jenzo one of the great big men in the game that was used for us and it's it it really was huge and that's why i'll be watching your new york next even though i'm a minnesota guy and we're not big fans of the yankees and we're not sponsored by giants

****HOST:**

** on out and i don't know i'll give you a minnesota guy right now that is a fan of all those things norm coleman well of course of course but that's a different thing i mean it's i guess he grew up in brooklyn doesn't really count doesn't really you're actually born in minnesota at least seven kids and two of them are yankees fans it drives me crazy all the time is that right

****REP. TOM EMMER:**

** oh yeah but that's everywhere cowboy fans yankee fans let's be honest tom it's hard to be a minnesota twins fan these days

****HOST:**

** when your kids were born if that was the kent urbex kirby pocket hero might be different said we were supposed to win ten games this year we're almost five hundred

****REP. TOM EMMER:**

** oh i know that you guys are actually much better than a winner waltz series anytime soon no i don't know

****HOST:**

** do you care about winning championships in minnesota what's soon in the next thirty years even the wild came up short for me this year i'll be running and dancing soon i can't wait he is the majority whip and everybody loves him now you see why out of the great state of minnesota so lucky to have him in congress i love this guy tom emmerwalt I don't see any transcript segment provided in your message.
